**CLASS XII**

**A. Fundamentals of Human Geography** (70 Periods) 35 Marks

**Unit 1: Human Geography: Nature and Scope**

**Periods 3**

**Unit 2: People**

- Population — distribution, density and growth
- Population change—spatial patterns and structure; determinants of population change;
- Age-sex ratio; rural-urban composition;
- Human development - concept; selected indicators, international comparisons
Unit 3: Human Activities

- Primary activities - concept and changing trends; gathering, pastoral, mining, subsistence agriculture, modern agriculture; people engaged in agricultural and allied activities - some examples from selected countries.
- Secondary activities-concept; manufacturing: types – household, small scale, large scale; agro based and mineral based industries; people engaged in secondary activities - some examples from selected countries.
- Tertiary activities-concept; trade, transport and communication; services; people engaged in tertiary activities - some examples from selected countries.
- Quaternary activities-concept; knowledge based industries; people engaged in quaternary activities - some examples from selected countries.

Unit 4: Transport, Communication and Trade

- Land transport - roads, railways; trans-continental railways.
- Water transport - inland waterways; major ocean routes.
- Air transport- Intercontinental air routes.
- Oil and gas pipelines.
- Satellite communication and cyber space.
- International trade-Bases and changing patterns; ports as gateways of international trade, role of WTO in International trade.

Unit 5: Human Settlements

- Settlement types - rural and urban; morphology of cities (case study); distribution of mega cities; problems of human settlements in developing countries.

Unit 6: Map Work on identification of features based on above units on the outline Political map of World.

Part B. India: People and Economy

Unit 7: People

- Population: distribution, density and growth; composition of population - linguistic, religious; sex, rural-urban and occupational – population change through time and regional variations;
- Migration: international, national-causes and consequences;
- Human development: selected indicators and regional patterns;
- Population, environment and development.
Unit 8: Human Settlements
- Rural settlements - types and distribution;
- Urban settlements - types, distribution and functional classification.

Unit 9: Resources and Development
- Land resources- general land use; agricultural land use, Geographical conditions and
distribution of major crops (Wheat, Rice, Tea, Coffee, Cotton, Jute, Sugarcane and
Rubber), agricultural development and problems.
- Water resources-availability and utilization-irrigation, domestic, industrial and other uses;
scarcity of water and conservation methods-rain water harvesting and watershed
management (one case study related with participatory watershed management to be
introduced).
- Mineral and energy resources- distribution of metallic (Ironore, Copper, Bauxite,
Manganese); non-metallic (Mica, Salt) minerals; conventional (Coal, Petroleum, Natural
gas and Hydro electricity) and non-conventional energy sources (solar, wind, biogas) and
conservation.
- Industries - types, factors of industrial location; distribution and changing pattern of selected
industries-iron and steel, cotton textiles, sugar, petrochemicals, and knowledge based
industries; impact of liberalization, privatisation and globalisation on industrial location;
industrial clusters.
- Planning in India- target area planning (case study); idea of sustainable development (case
study).

Unit 10: Transport, Communication and International Trade
- Transport and communication-roads, railways, waterways and airways: oil and gas
pipelines; national electric grids; communication networkings - radio, television, satellite
and internet.
- International trade- changing pattern of India’s foreign trade; sea ports and their hinterland
and airports,

Unit 11: Geographical Perspective on Selected Issues and Problems (One
case study to be introduced for each topic)
- Environmental pollution; urban-waste disposal.
- Urbanisation, rural-urban migration; problems of slums.
- Land Degradation.
Unit 12: Map work on locating and labelling of features based on above units on outline political map of India 3 Marks

C. Practical Work

Unit I: Processing of Data and Thematic Mapping (Periods 20)

- Sources of data.
- Tabulating and processing of data; calculation of averages, measures of central tendency, deviation and rank correlation;
- Representation of data- construction of diagrams: bars, circles and flowchart; thematic maps; construction of dot; choropleth and isopleth maps.
- Use of computers in data processing and mapping.

Unit II: Field Study or Spatial Information Technology (Periods 10)

Field visit and study: map orientation, observation and preparation of sketch; survey on any one of the local concerns; pollution, ground water changes, land use and land-use changes, poverty, energy issues, soil degradation, impact of floods and drought, catchment area of school, Market survey and Household survey (any one topic of local concern may be taken up for the study; observation and questionnaire survey may be adopted for the data collection; collected data may be tabulated and analysed with diagrams and maps).

OR

Spatial Information Technology

Introduction to GIS; hardware requirements and software modules; data formats; raster and vector data, data input, editing & topology building; data analysis; overlay & buffer.

Recommended text books:
1. Fundamentals of Physical Geography, Class XI, Published by NCERT
2. India, Physical Environment, Class XI, Published by NCERT
3. Practical Work in Geography, Class XI, Published by NCERT
4. Fundamentals of Human Geography, Class XII, Published by NCERT
5. India - People and Economy, Class XII, Published by NCERT
6. Practical Work in Geography, Class XII, Published by NCERT

Note: The above textbooks also available in Hindi medium.
